Introduction	This E-Mail ALSPO message promulgates new procedures for issuing and processing Reserve orders for Extended Active Duty (EAD) in Direct-Access (DA).

EAD -- Application / Authorization	References (a) and (b) provide EAD policy guidance for Reserve officers. Reference (c) provides the policy for Reserve enlisted personnel.

Summary of EAD Procedure Changes	There have been several enhancements to the EAD orders process in Direct-Access. Most notably:

- Previously, two sets of orders were required to place the member on EAD and make the PCS transfer. First, a PCS order was issued, and then a separate EAD order was issued. The new procedure combines the PCS and EAD orders into a single EAD authorization.

- It is no longer necessary for the SPO to route EAD orders to PSC Topeka (MAS) or the servicing ISC (pf) for approval (as prescribed in reference (d)) before completing the endorsements. SPO supervisors (CGHRSUP Role Users) now have the ability to set the orders' status to Approved.

EAD Orders – Assignment Officer Procedure

Introduction

This section provides special procedures for Assignment Officers to follow when issuing Extended Active Duty (EAD) authorizations/orders.

Discussion

EAD orders in Direct-Access serve two important functions, they:

1. Bring the member onto active duty thereby entitling them to pay and allowances.
2. Provide authorization to make a PCS move from the place from which ordered to active duty to the new permanent duty station.

Previously two sets of orders were required to place the member on EAD and make the PCS transfer. First, a PCS order was issued, and then a separate EAD order was issued. This procedure combines the PCS and EAD orders into a single EAD authorization.

Correcting Existing PCS Orders

This procedure can also be used to correct an existing set of orders. However, corrections must be made before the SPO records the depart/report information. If changes are necessary after the depart/report information is entered by the SPO, the orders must be cancelled and new orders issued. This error will appear if changes are attempted after the SPO has completed the depart/report information:
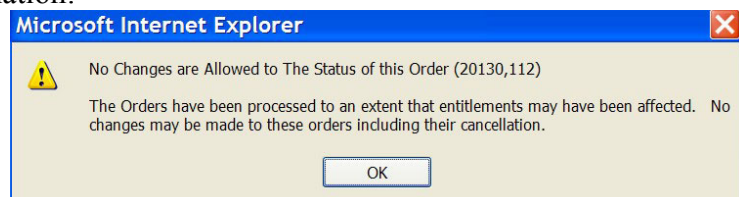

Procedure

After a decision is made to authorize EAD follow the normal *Make Assignment* (Succession Planning) process in Direct-Access.

- The EAD orders process is essentially the same as the active duty PCS process. There is one small **but important** difference – You must change the Action/Reason code on the orders page to "**RSV**".

A step-by-step overview of the process begins on the next page.
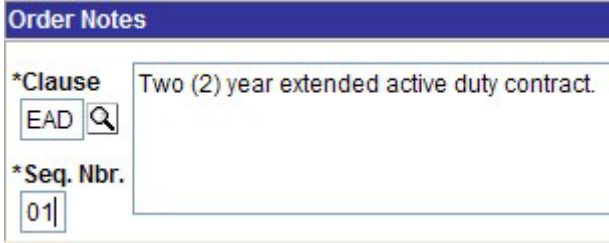

EAD Orders – Assignment Officer Procedure, Continued

Step	Action
1	Create a Succession Plan for the Position the Reservist is going to fill. Note: If correcting a set of orders, access the original succession plan in lieu of creating a new one.
2	Enter the member's employee ID number on the Candidates tab. (Note: If the employee ID field is not active (grayed out), click the Initialize button.)
3	Click the **Orders** button. The orders page will open in a new window.
4	Locate the Action/Reason field. • It will normally default to "**DPT**" as shown below: Action: Transfer DPT 🔍 PCS Depart • Change the Reason Code to "**RSV**" for Reserve Active Duty Assignment. You can click the lookup icon to search for and select the code or just enter in the space. • When completed the Action / Reason section will look like this: Action: Transfer RSV 🔍 RSV Duty
5	Enter the date the EAD commences in the **Est. Depart Date** field. Est Depart Dt: 06/01/2005 📅
6	Change the **Est. Report Date** to the date the EAD contract ends. *It will default to 30 days after the depart date.* Est Report Dt: 05/31/2007 📅
7	Set the ***Status** field to "*Apvd Std*" to approve the orders.
